Close to 150 children, gathered together with their parents at the JFTC, were impatiently waiting for this message. Finally Santa Claus arrived with a sleigh filled with Christmas gifts. Happily, all the children turned out to be good throughout the year.

Around 100 JFTC and NCIA Squadron Bydgoszcz families, altogether 250 people, met at the JFTC compound to celebrate the Christmas Tree Lighting. It has already become a tradition for the JFTC members to spend one day before Christmas in the company of the Bydgoszcz NATO family. This year, the event took place on 14 December and was full of good spirit, children's laughter, joy and magic...Indeed!

Disappearing objects, umbrellas conjured up, a levitating table, a changing color magic wand and many others warmed the children up before the arrival of Santa. The magician, who visited the JFTC's auditorium, chose also a few volunteers and taught them the magic craft. The Magic Show was followed by a Christmas cartoon that cheered up not only the youngest part of the audience, but also their parents and prepared everybody for the actual Christmas Tree Lighting.
