The ISAF Regional Command North (RC N) 13-01 Training, the last event conducted by the Joint Force Training Centre in 2012, entered its culmination phase. The Mission Rehearsal Exercise (MRE) started on 8 December. Right before the MRE, Lieutenant General Peter Vojtek, the Slovak Chief of Defence, visited the JFTC and observed the centre in action.

As it was General Vojtek's first visit to the Bydgoszcz NATO training centre, the JFTC Commander, Major General Pavel Macko, briefed him on the centre's mission and goals. The Slovak CHOD met also with the JFTC Training Division Head, who provided some background to the specific character of the ongoing training event. After an exhaustive introduction, the JFTC guest had a chance to meet with soldiers preparing for their future mission in Afghanistan and to see the training in progress.
