

## HOUSING

The housing market in Bydgoszcz offers many opportunities. The housing standard is good and finding suitable accommodation should not pose a problem. The JFTC Support Unit or your National Support Element will assist you in finding accommodation that meets your expectations.

The JFTC Support Unit allows time to search for accommodation. Therefore, you are encouraged to fill out the Accommodation Questionnaire defining your specific requirements with this regard, which is forwarded to you in advance by the JFTC. Please, be mindful that JFTC Support Unit will do their best to meet your specific requirements, however it may not always be possible. If you have any questions concerning the questionnaire, please contact the JFTC Support Unit Inprocessing Office or your National Support Element directly.

The rental cost of utilities is subject to negotiation, if your rental contract obligates your landlord to provide utilities (e.g. waste, phone/ Internet connection, gas, electricity, etc.). You may also exclude the cost from the rental contract and make your payments directly to the service provider.

Foreigners coming from EU and non-EU countries may purchase real estate in Poland without limitations. If you decide to buy property in the form of land or houses, you may face more complicated legal aspects, so then you should consult a lawyer or a real estate agent. A letter from the Polish Ministry of Interior on the criteria to be met by foreigners at the JFTC upon purchasing real estate is posted on the L-Drive.

For further details contact the JFTC Support Unit or your National Support Element.

Guidance on housing services, rentals, and associated Polish regulations is available on the L-Drive or through the JFTC Support Unit In-processing Office.
